

Executive Profile

Merv Forney

Mr. Forney is President of the Business Process Management business unit within ACS Government Services. This responsibility encompasses general management of the business process outsourcing services to the federal government. Responsibilities as a business unit president include strategic planning, sales, marketing, contract management and service delivery.

Merv's experience is extensive and dominated by a 24-year career with EDS supporting government programs, the last 15 in executive leadership. His most significant personal accomplishment at EDS was his promotion to President of the State and Local Government business unit based on a long successful track record of vision, innovation, service delivery excellence, customer satisfaction and business leadership. Customers were nationwide and included government agencies in education, law enforcement and public safety, health and human services, eCommerce and outsourcing.

He remains active in community affairs in Northern Virginia where he and his wife, Pamela, make their home with twins Christopher and Karen. He has served on numerous boards over the years including the California State Chamber of Commerce, Sacramento Area United Way, subcommittees of the California Little Hoover Commission and current Chairman (2001) for the Loudoun County Chamber of Commerce. He was recently elected to the board of the Virginia Asset Financing Corporation, serves as Vice Chairman of the Loudoun County Salvation Army Advisory Board and is a member of the Loudoun County Economic Development Commission.

Merv holds a Bachelor of Science degree in mathematics from California State Polytechnic University at Pomona.
